

**The 21st Century Beetle.**

**Volkswagen. Das Auto.**

## The Beetle bares all.

Oh come on, no need to feel shy. It's just a no holds barred peek into what makes the 21st Century Beetle tick deep inside. And outside for that matter. Yup, that icon of automobiles you loved way before you knew anything about cars. Well, it's back. And this time, it's prepped for the 21st Century. With vibrant colours that take you back to the good old days. Bursting with new surprises in the form of power, technology and design. Get all the details in these pages. What did you think we were talking about?

**Think Fun. Think New.**

1. The rear tailgate spoiler is both sporty and elegant, optimising the aerodynamics of the rear design. It's only appropriate that a car with such a sporty performance comes with the new dual exhaust.

2. Bi-xenon headlights with range adjustment and LED daytime running lights ensure you are visible to other road users in any weather.

3. The front fog lamps are designed in a slick unit that feels right at home in the 21st Century. Another effective addition, especially when driving through low-visibility areas.

4. Electrically adjustable and foldable ORVMs for convenience, designed with in-built indicators. Is there anything this car cannot do?

## Colours

Because driving into the 21st Century won't be as fun without refreshing new colours.

Habanero Orange

Oryx White

Tornado Red

Blue Silk

# Beetle 2015

## Technical Specifications

<b>Engine</b>	1.4 L /110 kW TSI
<b>Transmission</b>	7-speed DSG
<b>Wheels</b>	4 alloy wheels 16" "Whirl" / Space-saving spare wheel 16"
<b>Tyres</b>	205 / 60 R16
<b>Suspension</b>	4-link rear suspension
<b>Steering</b>	Electromechanical speed-sensitive power steering
